FROM THE CEO'S DESK...

Dear Friends

In the coming months, I will try to communicate with you in a different fashion. Of course, I did start this new style from our last issue of FEI Duniya.

I often keep asking you all to do more and after I saw this quote from Mr. William Hazlitt, I knew why I did it.

"The more we do, the more we can do, the more busy we are, the more leisure we have".

Some may wonder why we should do more. As Mr. Benjamin Disraeli says "Action may not always bring happiness but there is no happiness without action".

Yet if some people try to make fun of you then remember this:-

"There are people who make things happen, those who watch what happens and those who wonder what happened".

This quote brings me the memory of our dearest Shailaja Madam. It's going to be nearly one year since we have started to learn to live without her. Did you learn to do it? I did not.

Love You All.

Thanks & Regards
Pratap Nair

The month of September has always been associated with the Ganeshotsav Festival. It is the beginning of many a celebration that showcases India's cultural fervor and flavor. Our beloved madam, Mrs. Shailaja Nair was an ardent follower and devotee of Lord Ganesha. Her child-like antics and excitement at the arrival of her favorite Lord would get us all into the festive mood. Her faith in Lord Ganeshaa knew no bounds. She would regularly visit the Siddhivinayak Temple (at Prabhadevi, Dadar), many a times on foot, to seek His special blessings and guidance. Her prayers were always meant for the well-being of the entire FEI family.

So intense was her devotion that God decided to invite her to His abode on 9th September 2007. Yes, it was the month of September, last year. We pray to Him to take good care of her and we wish for the well-being of the entire FEI family. May Lord Ganesha bring in lots of happiness!

Absolutely amazing!
Beauty of Mathematics !

$1 \times 8 + 1 = 9$
$12 \times 8 + 2 = 98$
$123 \times 8 + 3 = 987$
$1234 \times 8 + 4 = 9876$
$12345 \times 8 + 5 = 98765$
$123456 \times 8 + 6 = 987654$
$1234567 \times 8 + 7 = 9876543$
$12345678 \times 8 + 8 = 98765432$
$123456789 \times 8 + 9 = 987654321$

Brilliant, isn't it?

And look at this symmetry:

$1 \times 1 = 1$
$11 \times 11 = 121$
$111 \times 111 = 12321$
$1111 \times 1111 = 1234321$
$11111 \times 11111 = 123454321$
$111111 \times 111111 = 12345654321$
$1111111 \times 1111111 = 1234567654321$
$11111111 \times 11111111 = 123456787654321$
$111111111 \times 111111111 = 12345678987654321$

Now, take a look at this... 101%
From a strictly mathematical viewpoint:
What Equals 100%?
What does it mean to give MORE than 100%?
Ever wonder about those people who say they are giving more than 100%?
We have all been in situations where someone wants you to GIVE OVER 100%.
How about ACHIEVING 101%? What equals 100% in life?
Here's a little mathematical formula that might help answer these questions:

If
A B C D E F G H I J K L M N O P Q R S T U V W X Y Z
Is represented as:
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26.
If:
H-A-R-D-W-O- R- K = 8+1+18+4+23+ 15+18+11 = 98%
And:
K-N-O-W-L-E- D-G-E = 11+14+15+23+ 12+5+4+7+ 5 = 96%
But:
A-T-T-I-T-U- D-E = 1+20+20+9+20+ 21+4+5 = 100%

THEN, look how far the love of God will take you:
L-O-V-E-O-F- G-O-D = 12+15+22+5+15+ 6+7+15+4 = 101%

Therefore, one can conclude with mathematical certainty that: While Hard Work and Knowledge will get you close, and Attitude will get you there, It's the Love of God that will put you over the top!

Congratulations
Way to go!

Hearty Congratulations!!!

Protection of our Environment

The extreme climatic conditions and unexpected weather conditions that we face nowadays are a result of Global Warming caused due to degradation of the environment. Man himself degrades the environment to his best possible extent and then he is the one who complains about the ill effects of Global Warming and environmental degradation. He does not think in terms of possibility but he thinks in terms of probability with regards to the protection of the environment. It is truly said by someone that "nothing is impossible". In the same way even protecting the environment is not at all impossible. So let us come together and think in terms of possibility rather than thinking in terms of probability.

The simplest tips for environment preservation are:-

1. Recycle resources, to the best possible extent.
2. Make more usage of natural light, thereby reducing usage of artificial light.
3. Switch off home appliances when not in use.
4. Do not print unless until unavoidable.
5. Prefer walking short distances than using motor bike or a car.
6. Educate and share your views on saving the environment with your family and friends.
7. Reuse/reduce old plastic bags. Carry your own bags to markets.
8. Monitor your vehicle's pollutant emissions at regular intervals.
9. Use eco-friendly equipments like eco-drive watches.
10. Let us grow more trees. Recycle CO_2.

Birthday Boy

Mr. Indravadan Mesariya, our birthday boy for the month, is really the " boy " of FEI Baroda, being probably the youngest. He is a simpleton and never says NO to any work assigned to him.

He has a burning desire to come up in life and strives to make each and every moment worthwhile. He is friendly by nature and loves to make friends.

Indravadan is celebrating his birthday on Sept 27 and FEI Duniya wishes him all the very best and an eventful year ahead.

You can make his day very special by sparing a few minutes to send your greetings at baroda@feicargo.net

Wanna know how a Stock Market works????

Once upon a time in a village, a man appeared and announced to the villagers that he would buy monkeys for Rs.10.The villagers seeing that there were many monkeys around, went out to the forest and started catching them. The man bought thousands at Rs.10 and as supply started to diminish, the villagers stopped their effort. He further announced that he would now buy at Rs20. This renewed the efforts of the villagers and they started catching monkeys again.

Soon the supply diminished even further and people started going back to their farms. The offer rate increased to Rs25 and the supply of monkeys became so little that it was an effort to even see a monkey, let alone catch it!

The man now announced that he would buy monkeys at Rs50! However, since he had to go to the city on some business, his assistant would now buy on behalf of him. In the absence of the man, the assistant told the villagers,"look at all these monkeys in the big cage that the man has collected. I will sell them to you at Rs35 and when the man returns from the city, you can sell it to him for Rs.50."

The villagers squeezed up with all their savings and bought all the monkeys. Then they never saw the man nor his assistant, only monkeys everywhere!!!

Welcome to the "Stock" Market!!!!!

This is one of the most beautiful stories related to trading in stocks. It describes the 'MARKET'.

Hats Off to the Indian Brain!!

This is not a story but a true incident that happened in USA.

An Indian walked into a bank in New York City one day and asked for the loan officer. He told the loan officer that he was going to India on business trip for two weeks and needed to borrow $5,000.

The bank officer told him that the bank would need some form of security for the loan. The Indian man handed over the keys to a new Ferrari parked on the street in front of the bank. He produced the title and everything checked out. The loan officer agreed to accept the car as collateral for the loan.

The bank's president and its officers all enjoyed a good laugh at the Indian for using a $250,000 Ferrari as collateral against a $5,000 loan. An employee of the bank then drove the Ferrari into the bank's underground garage and parked it there. Two weeks later, the Indian returned, repaid the $5,000 and the interest, which came to $15.41.

The loan officer said, "Sir, we are very happy to have had your business, and this transaction has worked out very nicely, but we are a little puzzled. While you were away, we checked you out and found that you are a multi millionaire. What puzzles us is, why would you bother to borrow '$5,000'"

The Indian replied: 'Where else in New York City can I park my car for two weeks for only $15.41 and expect it to be there when I return"
Ah, the brain of the Indian... This is why India is shining...
