THE ELEPHANT'S BELIEF

A gentleman was walking through an elephant camp, and he spotted that the elephants weren't being kept in cages or held using chains. All that was holding them back from escaping the camp, was a small piece of rope tied to one of their legs.

As the man gazed upon the elephants, he was completely confused as to why the elephants didn't just use their strength to break the rope and escape the camp. They could easily have done so, but instead they didn't try to at all.

Curious and wanting to know the answer, he asked a trainer nearby why the elephants were just standing there and never tried to escape.

The trainer replied;

"When they are very young and much smaller we use the same size rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free."

The only reason that the elephants weren't breaking free and escaping from the camp was because over time they adopted the belief that it just wasn't possible.

Moral of the story:

No matter how much the world tries to hold you back, always continue with the belief that what you want to achieve is possible. Believing you can become successful is the most important step in achieving it.

EVERY SIZE DOES MATTER

If you were to cook 3 cups of rice, would you add 3 cups of salt to it?

I certainly hope not!

So, in every preparation of rice, the rice always outnumbers the salt, yet a little salt makes a huge difference/impact in the overall outcome.

In the room in which you currently are, look up at the ceiling.

What is the size of the bulb compared to the size of the room? In the room I am in, my guesstimate is probably a ratio of 1:5000.

Yet, darkness flees the entire space once the small bulb is flipped on.

If I am the salt of the earth, and the light of the world, then "little me" has the ability to make big things happen.

Sometimes, because we feel outnumbered or overwhelmed at the sheer magnitude of evil or wrong-doers, we then choose powerlessness, and decide to go with the flow, not standing up for what we believe is right. Stop it! Little doesn't mean insignificant.

You are significant. Your presence should make a BIG difference. Stop waiting to be on the side of the majority. They may be the majority, but they are the trivial majority, and you are the impactful minority.

They are the rice of the world, and you are the salt of the world.

They are the room, and you are the light.

Make your influence felt!

"You are the world's seasoning, to make it tolerable."

A little boy was in a bus eating a chocolate. He then took another one and then another... A man next to him said, "Do you know that too much of it will damage your teeth??" The boy replied, "My grandfather lived for 132 years" The man asked, "Was it because of eating chocolate?" The boy replied, "No, he was always minding his own business!"

HOW TO IDENTIFY A STROKE?

During a party, Jane stumbled and took a little fall - she assured everyone that she was fine. They offered to call paramedics ... she said she had just tripped over a brick because of her new shoes.

They got her cleaned up and got her a new plate of food. While she appeared a bit shaken up, Jane went about enjoying herself the rest of the evening.

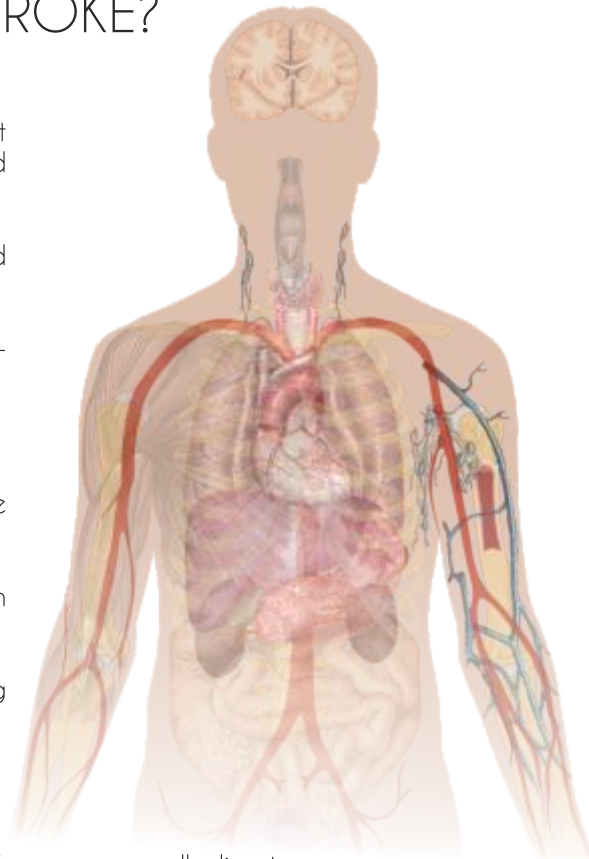

Her husband called later to say that his wife had been taken to the hospital - (at 6:00 PM Jane passed away)

She had suffered a stroke at the party.

Had they known how to identify the signs of a stroke, perhaps Jane would be with us today.

A neurologist says that if he can get to a stroke victim within 3 hours he can reverse the effects of a stroke TOTALLY.

He said the trick was getting a stroke recognized, diagnosed, and then getting the patient medically cared for within 3 hours, which is tough.

RECOGNIZING A STROKE

Sometimes symptoms of a stroke are difficult to identify. Unfortunately, the lack of awareness spells disaster.

When people nearby fail to recognize the symptoms of a stroke, the stroke victim may suffer severe brain damage. Some don't die; instead they end up in a helpless, hopeless condition.

Now doctors say a bystander can recognize a stroke by asking three simple questions (Remember the First Three Letters of STROKE :- **S. T. R.**):

S: Ask the individual to SMILE.

T: Ask the person to TALK and SPEAK A SIMPLE SENTENCE (Coherently)

R: Ask him or her to RAISE BOTH ARMS.

If he or she has trouble with ANY ONE of these tasks, call emergency number immediately and describe the symptoms to the dispatcher.

New Sign of a Stroke - Stick out Your Tongue!

If the tongue is 'crooked', if it goes to one side or the other that is also an indication of a stroke.

AN INTERESTING OBSERVATION

Did you know that the traditional deck of the playing cards are a strikingly coherent form of a Calendar?

There are 52 weeks in the year and so are 52 Playing Cards in a Deck. There are 13 weeks in each season and thus there are 13 cards in each suit.

There are 4 seasons in a year and 4 suits in the deck.

There are 12 months in a year so there are 12 court cards (those with faces namely Jack, Queen King in each suit)

The Red cards represent the day, while the black cards represent the night.

If you let

Jacks = 11, Queens = 12, and the Kings = 13, then add up all the sums of $1 + 2 + 3 + \dots + 13 = 91$. Multiply this by 4, for the 4 suits, therefore $91 \times 4 = 364$, Add 1 that is the Joker and you will arrive at the number 365 being the days in a year?

Is that a mere coincidence or a greater intelligence?

Of interest is the sum of the letters in all the names of the cards; eg :

add up the letters in "one, two, three, four, five, six, seven, eight, nine, ten, Jack, Queen, King" = 52

The Spades indicate ploughing/ working.

The Hearts indicates Love thy crops.

The Clubs indicates flourishing and growth.

The Diamonds indicate reaping the Wealth.

Also, in some card games 2 Jokers are used. Indicating the Leap year.

There is a deeper Philosophy than just a merely a Game of Playing Cards.

The Mathematical perfection is mind blowing.

FEI IS PROUD OF YOU, ADVAIT!

Mumbai-born Advait Deodhar has made history in the opening round of the 2018 NASCAR Whelen Euro Series at Circuit Ricardo Tormo, Valencia (Spain) by becoming the first Indian driver ever to win a competition in the championship in only his first-time racing in Europe. Below is an excerpt of his heartfelt mail to Mr. Pratap Nair and Mr. Abhijeet Nair. FEI is proud to have been associated with the talented and ambitious young man.

"As I've had great people supporting me from the start and through these tough last few years, as a thank you, I wanted to put their logos on the race car.

This included FEI most importantly as I would not be here if it were not for you all.

I would like to proudly wear the FEI logo for the next few years, as a thanks and appreciation for your support from the beginning. My parents have always taught me to appreciate the ones who believed in me and gave me the opportunity to be where I am."

We couldn't have been happier to see Advait crossing milestones and wish him more and more success in what he does. May he continue to represent our nation and win laurels from across the globe. And let us all vow to encourage the young budding talents we see in our everyday lives, so that one day, they too like Advait, make our heart swell with pride.

“BIG THINGS
HAVE SMALL
BEGINNINGS.”

How often have you felt disheartened and dejected thinking you are not adding any worth to your organisation, to society or to the world? How often have you been close to giving up the task you have been doing thinking it is not yielding any result? Have you felt that you have been running too much for too long, but not reaching the destination? Did you ever feel that appreciation, acknowledgement and recognition has not yet found you? If you have felt any of the above, at any point of time in your life, it is necessary that you have a close look at the picture above.

None of the above has had it easy during its journey. The struggles they had to go through is beyond our imagination. It is years and years of toiling, sleepless nights, frustration, hopelessness, rejections and numerous disappointments, that paved the path for them to succeed. More than anything, it is important that you move; do not stop, because once you stop, there is no hope. Dream big, take risks and do not let your negative thoughts affect the fantastic work that you are doing, because all these hurdles are just building up a good success story for you to tell the world and inspire others.
