LIGHTHOUSES DON'T GO
RUNNING ALL OVER LOOKING
FOR BOATS TO SAVE.
THEY JUST STAND THERE

Shining.

“Many years ago, the Station Director of All India Radio (AIR), Calcutta spent 2 ½ annas on a mutton leg to entice the tiger to roar during the recording of a children’s program on a zoo visit.

Audit objected to it stating that he had no authority to incur an expenditure on such an item. He was asked to remit the money, fix responsibility and take steps to prevent such defaults in future.

The station director’s office replied that he had the delegated powers to spend on the entertainment of artists who participate in recorded programs.

Citing the definition of an artist from the official manual, that there should be a contract between AIR and the artist. Audit asked the station director to produce a copy of the contract signed with the tiger.

The station director’s office replied that the manuals allowed him to waive the requirements in the case of VIPs, who the tiger is a Royal Bengal Tiger (certificate of the zoo authorities attached), the station director after careful considering had decided to waive the execution of the contract considering that the tiger had not insisted on any fee for its performance.

The audit officer accepted the reply and dropped the objection.

THE THREAD OF **RELATIONSHIPS**

After the death of a jeweller, his family was in grave trouble. They did not have enough money even for food.

One day his wife gave her son a sapphire necklace and said "Son, take this to your uncle's shop. Ask him to sell it and give us some money."

The son took that necklace and reached his uncle's shop.

His uncle looked at the necklace thoroughly, and said "Son, tell your mother that the market is very slow and down right now. If she sells it after some time, she will get a good price."

He gave him some money and further said, "Come and sit with me at the shop from tomorrow."

So the next day onwards the boy started going to the shop every day and there he started learning how to test diamonds and gems.

Soon he became a well-known connoisseur of diamonds.

People started coming from far and wide to get their diamonds tested.

One day his uncle said, "Son, bring that sapphire necklace from your mother now tell her that the market is good now, you will get a good price."

Taking the necklace from his mother, the young man tested it himself and found that it was a fake.

He began to wonder that his uncle was such a great connoisseur. Why didn't he inform them?

Leaving the necklace at home, he returned to the shop.

Uncle asked, "Didn't you bring the sapphire necklace?"

He said, "Uncle, it's artificial... But why did you hide this from me?"

Then his uncle said, "If I had told you it was fake when you had first brought the necklace to me, you would have thought that I was only doing it because you were in a difficult situation and taking advantage.

Today when you yourself have the knowledge, you know for sure that the necklace really is fake.

At that time, it was more important for me to take care of the relationship than to speak the truth."

The truth is that, without knowledge everything we think, see and know in this world is wrong.

And because of this, our relationships become a victim of misunderstandings which then lead to rifts and our life starts falling apart.

The invisible thread by which our relationships are tied is nourished by **LOVE** and **TRUST**.

"Don't leave someone's side at the **SLIGHTEST STRAIN** or **MISUNDERSTANDING** in **RELATIONSHIPS**"

It takes a lifetime to make **FRIENDS** and **RELATIONSHIPS**. Nurture them

Enjoy the HUMOUR

We started talking & to my amazement she was very intelligent, had control on many topics which many youngsters don't.

Finest example of presence of mind..!

A professor started his class on a very serious topic.

The moment, he turned towards the blackboard, one of the students whistled.

He turned, looked at the class and asked the whistler's name.?

No one answered.

The professor peacefully kept the pen in his pocket saying:

"Lecture ends here. I'll tell you a story to utilise the remaining time".

Everyone became interested.

"Yesterday night I tried hard to sleep, but it was miles away from my eyes, so I thought I'd better get petrol in my car, which will save my time next morning and might induce sleep.

After having my tank full, I started roaming in that area, enjoying the peace of a traffic free ride.

Suddenly, on the corner I saw a girl, who was as young and beautiful as the clothes she was wearing.

Must have been returning from a party.

Out of courtesy, I turned my car towards her and asked if I may be of any help.

She asked me if I could drop her to her home, she'll be very obliged, to which I agreed.

She sat in the front seat with me.

When we reached her address, she admitted my courteous nature & behavior and accepted that she had fallen in love with me.

I also admitted her intelligence and beauty and that I've also started liking her.

I told her about my job as a professor in the university.

The girl asked my number, which I gave her willingly.

Then she asked me a favor, to which i couldn't have denied naturally.

She said that her brother is a student in the same university, and asked me to take care of him, since we'll be in a long relationship now.

I asked the name of the student. She said that I'll recognize him with one of his very prominent quality..

He whistles a lot.!!!

All eyes in the classroom turned towards the boy who had whistled.

The Professor said: "I didn't buy my Ph. D in psychology. I earned it".

Amazing English

WHEN BODY PARTS ARE USED AS VERBS

Many parts of the body can be used as verbs in either a physical or a metaphorical sense.

You can head a company, but if things go wrong you'll have to shoulder the blame, or face your investors.

A good leader will back his employees, but if you don't toe the line the management can skin you.

Did you muscle your way into that job?

You might eye someone suspiciously, or wait for the police to finger a suspect.

But if you need to get out of town, you can thumb a ride or you can ride with me if you can stomach the thought.

Use the strong arm tactic, if you want to elbow out someone.

I don't always sing along with the radio, but I sometimes do mouth the words.

To all English-Language Lovers.

Cups of 3 Rice

If you were to cook 3 cups of rice, would you add 3 cups of salt to it? Certainly not!

So, in every preparation of rice, the grains of rice always outnumber the salt, yet a little salt makes a huge difference/impact in the overall outcome.

In the room in which you currently are, look up at the ceiling.

What is the size of the bulb compared to the size of the room? It is probably a ratio of 1:5000.

Yet, darkness flees the entire space once the small bulb is flipped on.

If I am the salt of the earth, and the light of the world, then "little me" has the ability to make big things happen.

Little doesn't mean insignificant.

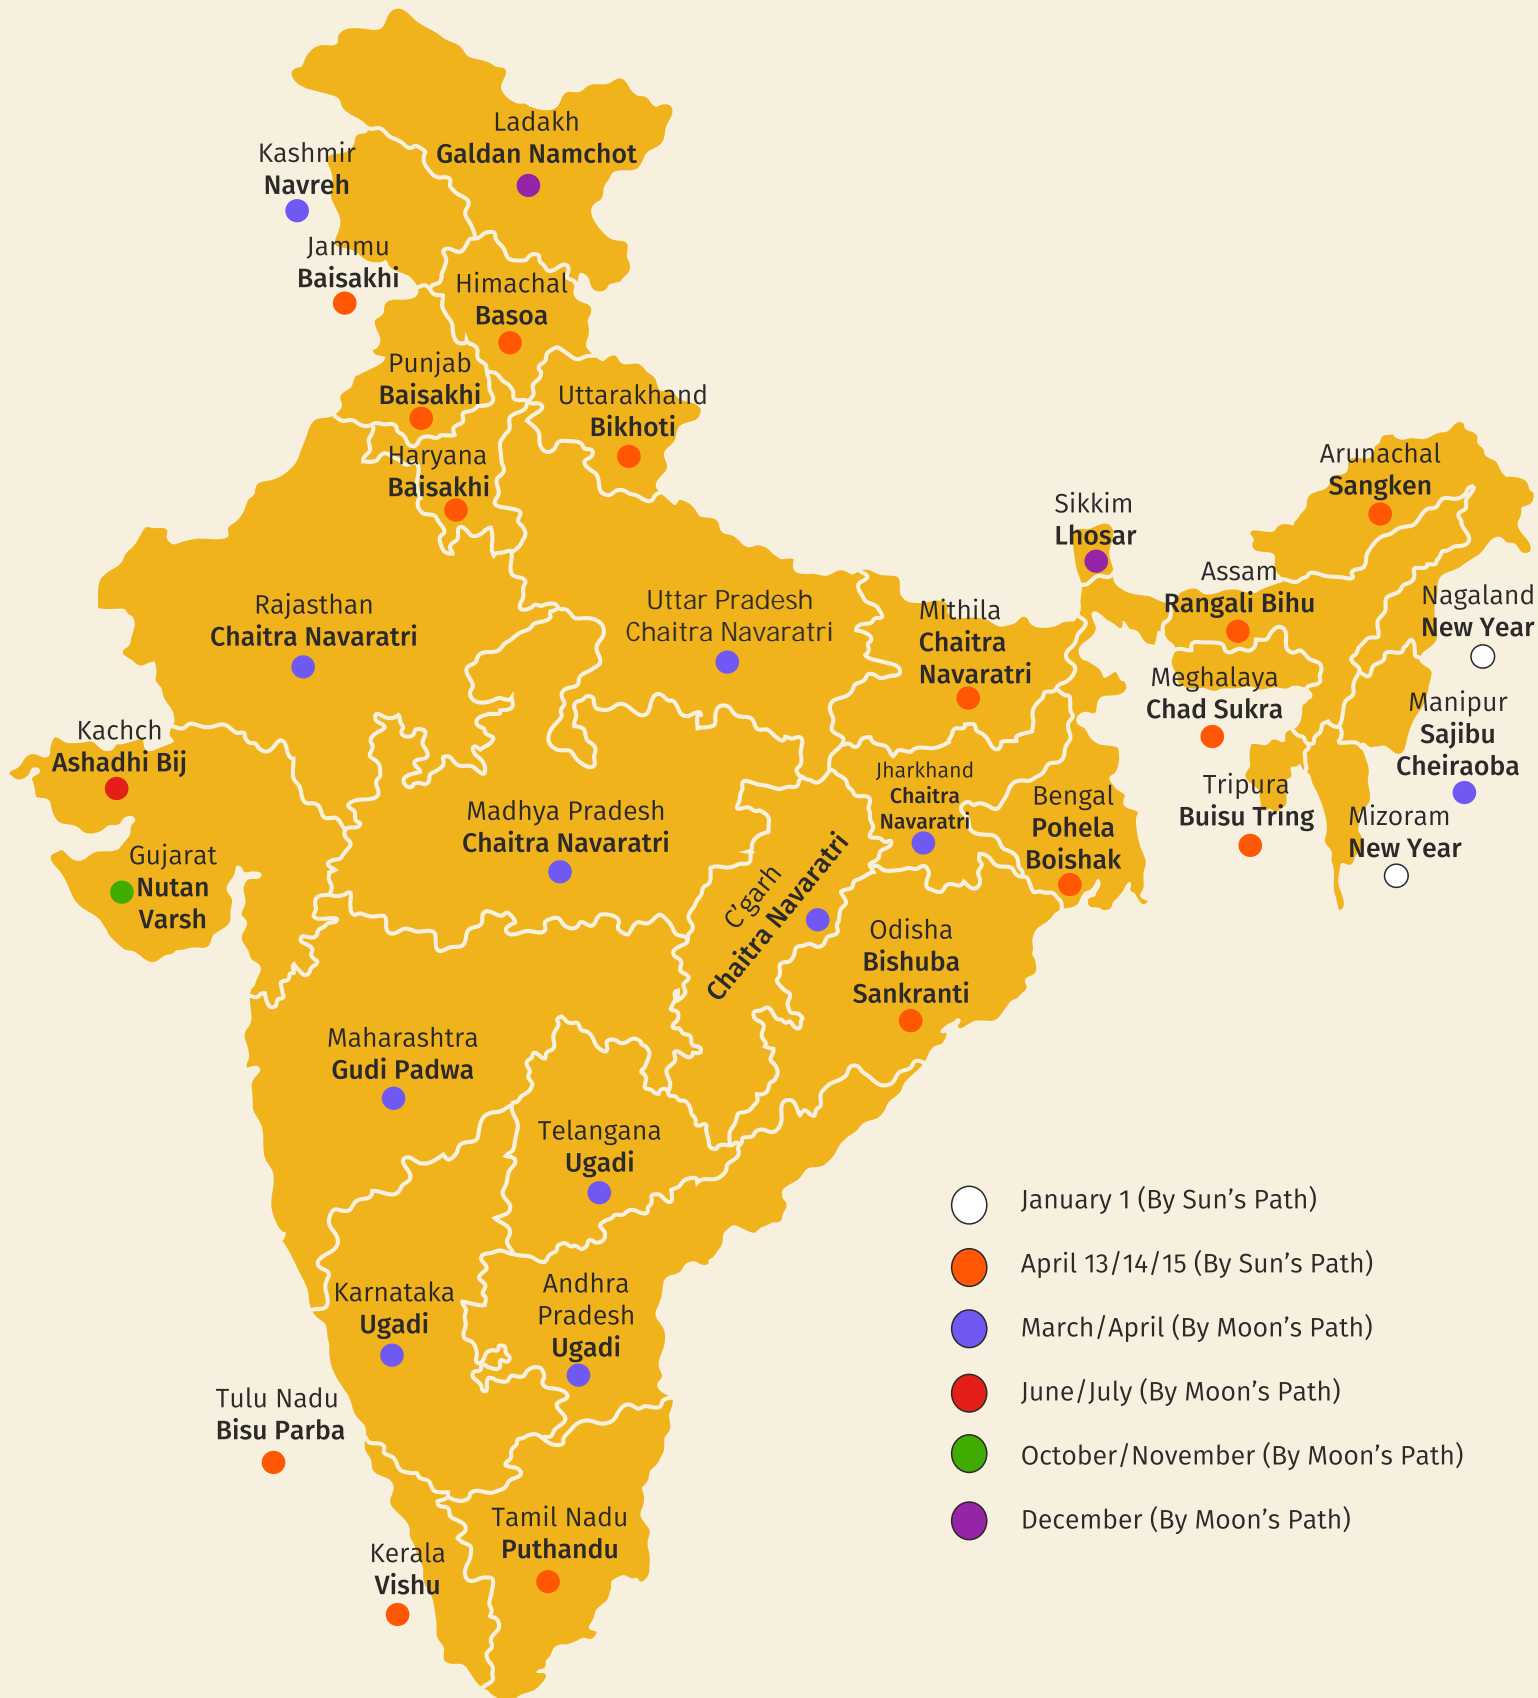

"Who is there to take up my duties?" asked the setting sun.

The world remained dark and silent.
