IT IS AN AMAZING CIRCLE OF NUMBERS, **1 TO 32** WITHOUT A REPEAT. THE BEAUTY IS THAT THE SUM OF ANY TWO ADJACENT NUMBERS IS A PERFECT SQUARE.

BEAUTY OF MATHEMATICS

DR. SARVEPALLI RADHAKRISHNAN

Dr. Sarvepalli Radhakrishnan, a great teacher, philosopher and the former President of India in whose honour Teachers' Day is celebrated each year, was an exceptionally witty man.

The King of Greece came to India on a state visit.

President Radhakrishnan welcomed him at Palam Airport.

"Your Majesty! You are the first King of Greece to come to India on an invitation".

"The last time, Alexander the Great came uninvited."

Gandhiji: "Don't drink milk, which is the essence of beef".

Dr. Radhakrishnan: "In that case we all are cannibals. For we drink our mother's milk, which is the essence of human flesh."

Winston Churchill while having a cup of tea said to Dr. Radhakrishnan: Sugar is the only English word where "s" is pronounced as "sh"

Dr. Radhakrishnan quipped: "Are you sure?"

Once Winston Churchill hosted a state banquet in honor of Dr. Radhakrishnan, who washed his hands before eating and used his hands for having the food while Churchill used spoons and fork.

Churchill could not stop himself from advising Dr. Radhakrishnan to use a spoon and fork saying, that they were more hygienic.

Dr. Radhakrishnan replied, "Since nobody can use my hand to eat, my hand is more hygienic than any spoon or fork you use"

PLAY THE BATTLE DRUMS - GAUTAM BUDDHA

A king had many elephants, but one elephant was very powerful, very obedient, sensible and skillful in everything especially his fighting skills.

In many wars, he was sent on the battlefield and he used to return only after getting victory for the king.

Therefore, he was the most loved elephant of the king.

Time went by and there came a time when the elephant started getting old.

Now he was not able to perform as before.

Therefore, now the king did not even send him to the battlefield but he still remained as a part of the king's team.

One day the elephant went to a lake to drink water, but unfortunately his feet got stuck in the mud there and he went on sinking.

He tried a lot, but he could not remove himself from the mud. People came to know from the sound of his screams that the elephant was in trouble.

The news of the elephant trapped, also reached the king.

All the people, including the king, gathered around the elephant and made various efforts to get him out.

But alas, even after trying for a long time, there was no way out.

At that time, Gautam Buddha was passing by.

Gautam Buddha stopped and inspected the site of the incident and then suggested to the king that the battle drums should be played around the lake.

The listeners felt shocked at the bizarre suggestion as to how the trapped elephant would come out by playing the battle drums.

But they could not say anything to Gautam Buddha and started playing the drums.

As soon as the drums of war started ringing, there was a change in the gestures, behaviour and determination of the troubled elephant.

At first, the elephant slowly stood up and then gradually used his force and intelligence and before long, came out of the mud on his own, shocking everyone.

Gautam Buddha smiled and said :
There was no lack of physical ability in the elephant, but only the need to infuse enthusiasm, Motivation and Will within it was missing.

To maintain enthusiasm in life, it is necessary that humans maintain purposeful thinking and do not let despair dominate their thoughts....!!!

In today's tough times we all need to enthuse ourselves & people around us, with hope & enthusiasm by playing, if need be the BATTLE DRUMS, so that we will again Celebrate Abundance of Joy, Health & Happiness.

REMEMBER : THIS TOO SHALL PASS !!

Spread
Happiness!!!

FUN WITH TABLE USING VEDIC MATHEMATICS

Upto which table do you know...? At least Upto 10, awesome! You have crossed the mountain!

Don't worry for the rest of the tables. Any table from 10 to 99, is very easy to calculate using vedic mathematics.

Another gift of our great nation to the world.

For example Table of 87 First write down table of 8 then write down table of 7 beside it

08	07	08+0	87
16	14	16+1	174
24	21	24+2	261
32	28	32+2	348
40	35	40+3	435
48	42	48+4	522
56	49	56+4	609
64	56	64+5	696
72	63	72+6	783
80	70	80+7	870

Now table of 38			
03	08	3+0	38
06	16	6+1	76
09	24	9+2	114
12	32	12+3	152
15	40	15+4	190
18	48	18+4	228
21	56	21+5	266
24	64	24+6	304
27	72	27+7	342
30	80	30+8	380
33	88	33+8	418
36	96	36+9	456

Now table of 92			
09	02	09+0	92
18	04	18+0	184
27	06	27+0	276
36	08	36+0	368
45	10	45+1	460
54	12	54+1	552
63	14	63+1	644
72	16	72+1	736
81	18	81+1	828
90	20	90+2	920
99	22	99+1	1012
108	24	108+2	1104

This way one can make any Tables from 10 to 99 Share & teach children, the brilliance of the country is full of unthinkable treasures! This is our Vedic Mathematics!!

SOMETHING TO KEEP YOU GUYS BUSY:

Each word has two + two blanks. You need to fill up with the same pair of letters to form a word.

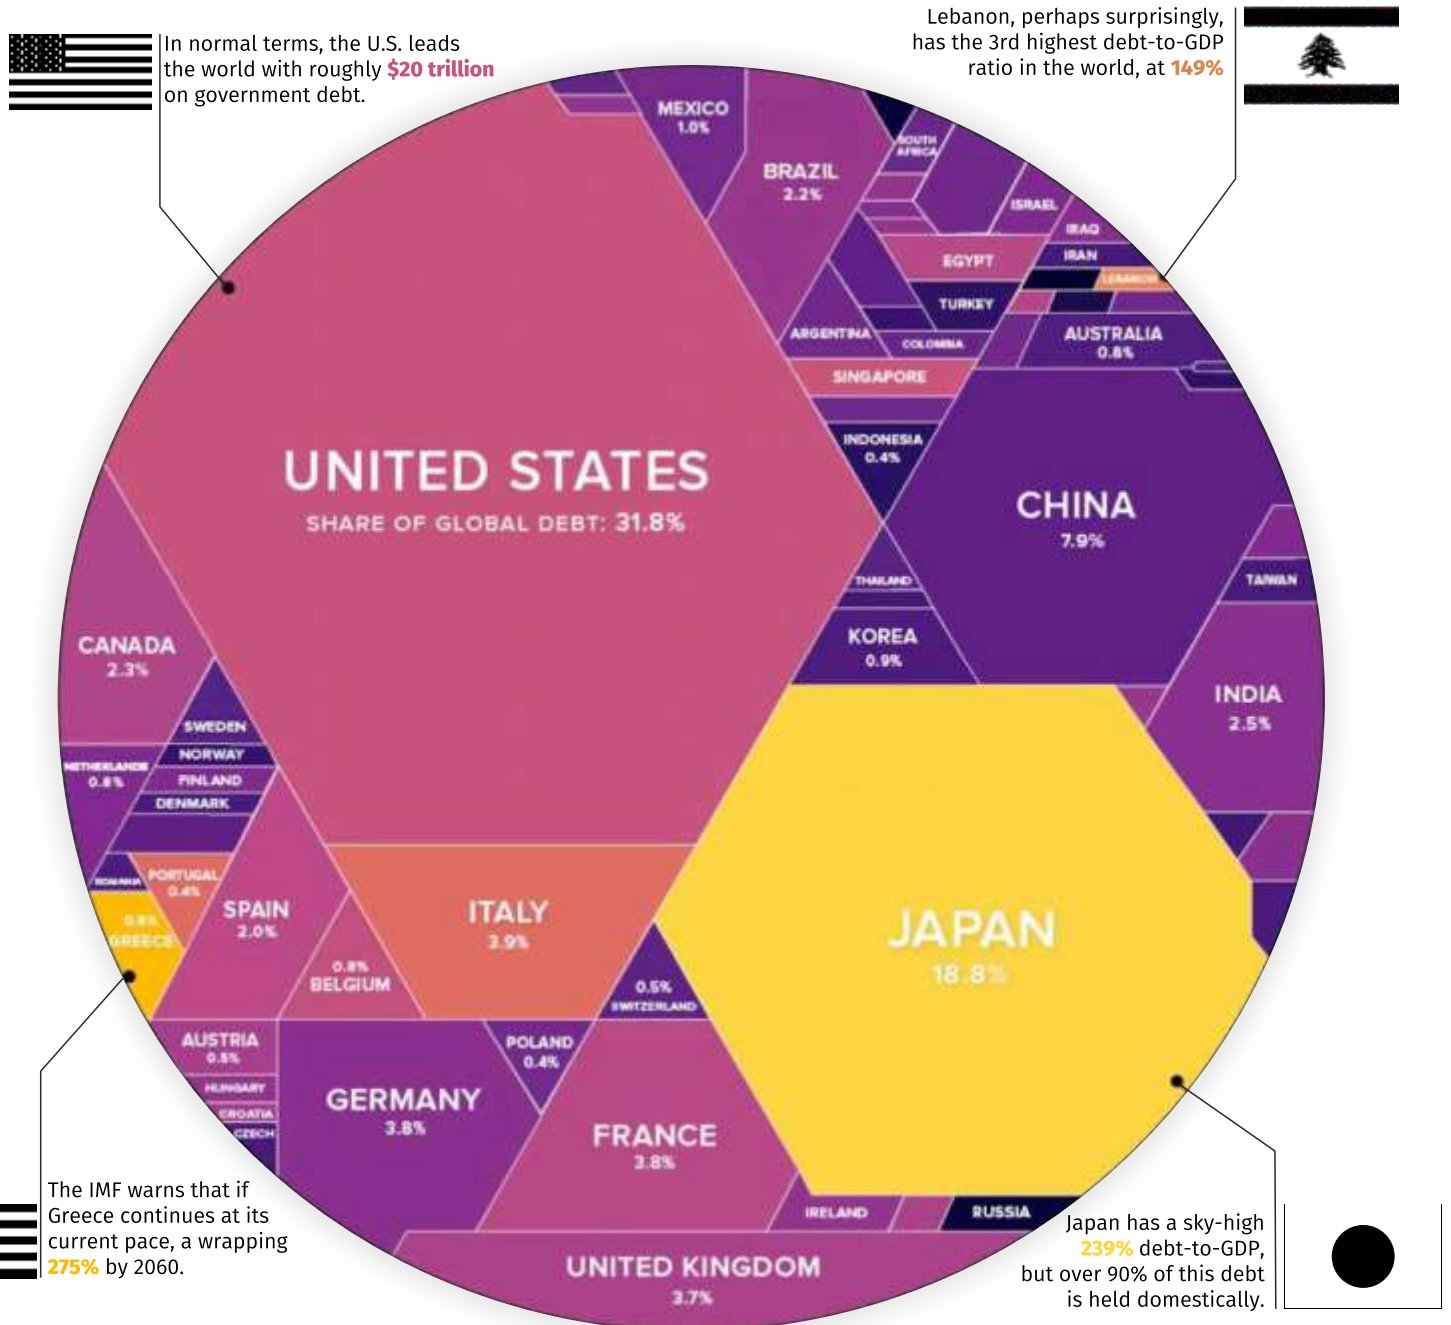

For example:
S _ _ ur _ _ e.

The missing pair letters are A T.
The word is Saturate.

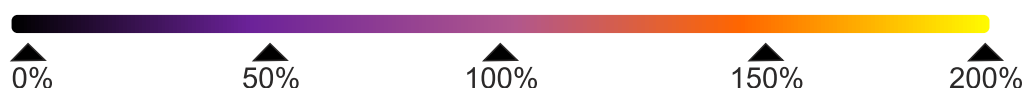

Here's an opportunity to sharpen our brain! Enjoy the game.

Onion | Violation | Hardware | Horseshoe | Persevere | Sentiment |
Undaunted | Cookbook | Longing | Distinguish | Peddled | Saturate |
Haphazard | Wholesale | Orator | woodwork | Tomato | Wayward |
Heartbreak | Benevolent | Condition | Anticipation | Curriculum |
Engaging | Incorporate
