## LOK SABHA ELECTION

### System of elections in Lok Sabha

Members of the Lok Sabha are directly elected by the people of India, on the basis of Universal Suffrage. Suffrage, also known as general suffrage or common suffrage, consists of the right to vote of all adult citizens, regardless of property ownership, income, race, or ethnicity, subject only to minor exceptions.

For the purpose of holding direct elections to Lok Sabha; each state is divided into territorial constituencies. In this respect, the constitution of India makes the following two provisions:

1. Each state is allotted a number of seats in the Lok Sabha in such a manner that the ratio between that number and its population is same for all the states of India. This provision does not apply for states having a population of less than 6 million (60 lakhs).
2. Each state is divided into territorial constituencies in such a manner that the ratio between the population of each constituency and the number of seats allotted to it remain the same throughout the state.

### Powers

The Lok Sabha has certain powers that make it more powerful than the Rajya Sabha.

- Motions of no confidence against the government can be introduced and passed in the Lok Sabha. If passed by a majority vote, the Prime Minister and the Council of Ministers resign collectively.
- The Rajya Sabha has no power over such a motion, and hence has no real power over the executive. This is because the Constitution of India has only made the Union Council of ministers responsible to the Lok Sabha, not to the Rajya Sabha.
- Money bills can only be introduced in the Lok Sabha, and upon being passed, are sent to the Rajya Sabha, where it can be deliberated on for up to 14 days. If not rejected by the Rajya

Sabha, or 14 days lapse from the introduction of the bill in the Rajya Sabha without any action by the House, or recommendations made by the Rajya Sabha are not accepted by the Lok Sabha, the bill is considered passed.

- The budget is presented in the Lok Sabha by the Finance Minister in the name of the President of India.
- Equal Powers with the Rajya Sabha in initiating and passing any Bill for Constitutional Amendment (by a majority of the total membership of the House and at least two-thirds majority of the members present and voting).
- Equal Powers with the Rajya Sabha in initiating and passing a motion for the impeachment of the President (by two-thirds of the membership of the House).
- Equal Powers with the Rajya Sabha in impeachment process (initiating and passing a motion for the removal) of the judges of the Supreme Court and the state High Courts (by a majority of the membership of the House and at least two-thirds majority of the members present and voting), who then can be removed by the President of India.
- Equal Powers with the Rajya Sabha in initiating and passing a resolution declaring war or national emergency (by two-thirds majority) or constitutional emergency (by simple majority) in a state.
- If the Lok Sabha is dissolved before or after the declaration of a National Emergency, the Rajya Sabha becomes the sole Parliament. It cannot be dissolved. This is a limitation on the Lok Sabha.

In conclusion, it is clear that the Lok Sabha is more powerful than the Rajya Sabha in almost all matters. Even in those matters in which the Constitution has placed both Houses on an equal footing, the Lok Sabha has more influence due to its greater numerical strength. This is typical of any Parliamentary democracy, with the lower House always being more powerful than the upper.

## LOK SABHA ELECTION 2019

The battle to win a majority of 543 Lok Sabha seats has formally begun. While polling won't be spread over 10 days and nine phases, as was the case in 2014, three states will see voting during all seven phases – a first in a long time. Seventeen states will finish voting in a single day. Four states will elect a new

Assembly along with the new members of Parliament. The 2019 Indian general election is scheduled to be held in 7 phases from 11 April 2019 to 19 May 2019 to constitute the 17th Lok Sabha. The counting of votes will be conducted on 23 May 2019 and on the same day the results will be declared.

The 543 elected MPs will be elected from single-member constituencies. The President of India nominates an additional two members from the Anglo-Indian community if he believes the community is under-represented. Eligible voters must be Indian citizens, 18 or older, an ordinary resident of the polling area of the constituency and possess a valid voter identification card issued by the Election Commission of India.

Earlier there were speculations that the Modi Government might prepone the 2019 general election to counter the anti-incumbency factor, however learning from its past blunder of preponing election made by Vajpayee Government it has decided to go into election as per the normal schedule which was announced by Election Commission of India on 10 March 2019.

## SOME OF THE FACTORS THAT WILL HOLD THE KEY TO THIS ELECTION

**1. National Security / Terror** – A big theme in all polls since 1990's, it did not appear to be an important part of the discourse this time – until a jihadi suicide bomber struck in Pulwama.

**2. Inflation** – Generally a ubiquitous factor, it has been missing in action this time. The current government has succeeded in taming price rise this time.

**3. Jobs** – One of the main weapons in the opposition armory this election would be employment which this government has failed to create.

**4. Rural Unrest** – Farmers – rather, rural voters – were a big factor in current government's stunning victory in 2014. Demonetization along with sundry factors, like damage to standing crops by stray cattle is thought to have worsened the problem which to an extent has been repaired by giving monetary assistance.

**5. Caste** – The opposition's best hope of shaking the current government is to play caste-based politics like upper caste & Dalits over quota, OBC & Muslims against government, etc.

**6. Stability & Strong Leadership vs. Diversity & Shared Leadership** – The election would be a contest between current government who has a strong PM vs. the opposition's failure to name its choice for PM which will be a coalition government.

**7. Corruption** – Current government has come out clean on corruption and has ensured that the party do not suffer like the opposition faced during their tenure

**8. Ram Temple** – Building of a Ram temple on the disputed land in Ayodhya, Uttar Pradesh will be on campaign heavily during the election. It is viewed that prime minister and the Uttar Pradesh chief minister are pushing for the construction of the Ram temple to garner the majority Hindu vote.

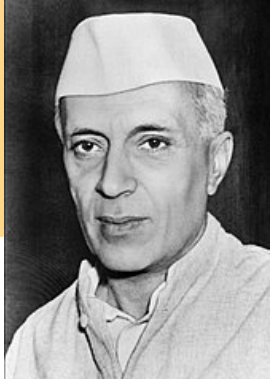

**9. Women** – expecting handsome support from the women voters because of the measures taken by this government - like building toilets, providing LPG, capital punishment for those guilty of raping minors, etc.

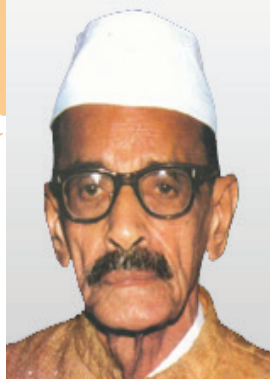

**10. Young Voter** – A huge addition to the electoral college, they can tip the scales with their sheer number.

## PRIME MINISTERS OF INDIA

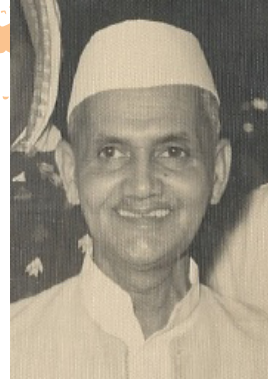

The Prime Minister of India is the chief executive of the Government of India. In India's parliamentary system, the Constitution names the President as head of state de jure, but his or her de facto executive powers are vested in the prime minister and their Council of Ministers. Appointed and sworn-in by the President, the prime minister is usually the leader of the party or alliance that has a majority in the Lok Sabha, the lower house of Parliament of India. Since independence (1947) India has had 14 Prime Ministers :

Jawaharlal Nehru  
1947 - 1964

Gulzarilal Nanda  
1964 - 1964 & 1966 - 1966

Lal Bahadur Shastri  
1964 - 1966

Indira Gandhi  
1966 - 1977 & 1980 - 1984

## HOW LIFE HAS CHANGED SINCE LAST ELECTION

Most fundamental factor of performance (e.g. life expectancy, literacy, per capita income) have improved almost without interruption since independence, though pace of improvement has fluctuated widely through the terms of different governments. For instance, real per capita income growth in the past five years was higher than it was during UPA-II because rate of inflation has been consistently low since 2014. But job creation, especially in rural areas, is estimated to have fallen since 2016, partly reflected in current confidence.

We are going to have a contributory competition for you all to write to us on various subjects. It's not compulsory, but it comes with many awards and rewards and hence it's in your interest to take part in it.

## COMPLIANCE UPDATE - US REVOKES GSP FOR INDIA AND TURKEY

On May 3, 2019, the US will terminate the Generalized System of Preference (GSP) designations for India and Turkey.

President Trump has stated that India is being terminated because it has not assured the US will have equitable and reasonable access to its markets. The US Trade Representative explains that India has implemented a wide array of trade barriers that "create serious negative effects on US commerce."

Turkey is being terminated based on their economic development, stating that since it was named as a GSP country in 1975 the country no longer qualifies for the program.

India is the largest GSP exporter shipping an estimated \$5.7 billion dollars' worth of product into the US per year. Turkish imports total \$1.7 billion.

### CONDOLENCE

Kamal ji has been our chartered accountant for a very long time serving us well and keeping the timing. He demanded timely inputs and was strict and tough, which was good for FEI. During challenges and shortage of working capital etc, he introduced us to people who did bail us out. The professional relationship turned into a personal one over the years. We are with his family at this hour of shock and we pray to God Almighty to give his soul peace and honour. He will be missed forever as there is no replacement to such wonderful people. Love you Kamalji, as always. FEI group is grateful to you and your assistance in our growth.
